Batch EUR-121 comes from certified organic *Eucalyptus radiata* grown in South Africa and steam distilled from the leaves in January 2026. The aroma is bright and clean, softer and rounder than many eucalyptus oils, with a fresh camphoraceous lift and a faintly sweet finish.

GC-MS analysis of this batch identified 31 components. It leads with 1,8-cineole at 62.22 percent, followed by alpha-terpineol at 12.32 percent and limonene at 7.44 percent. Oxides dominate the profile and are associated with clear, open, invigorating breathing space, while the monoterpenol fraction at just over 17 percent lends a gentle, skin-friendly character that supports everyday comfort in diffusion and diluted topical blends.

This exact batch was independently GC-MS tested. The full report and certificate of analysis are available to download here, so you can see precisely what is in the bottle you are using.
